**A. Overview of Information Collection**

Title of Information Collection: Family Options Study 12-Year Follow-up: Survey Data Collection– Phase II.

OMB Approval Number: 2528-0259.

Type of Request: Revision of a currently approved collection.

Form Number: N/A.

Description of the Need for the Information and Proposed Use: The purpose of this proposed information collection is to administer a 12-Year Follow-up Survey with the families that enrolled in the U.S. Department of Housing and Urban Development’s (HUD) Family Options Study between September 2010 and January 2012.

The Family Options Study is a multi-site experiment designed to test the impacts of different housing and service interventions on homeless families in five key domains: housing stability, family preservation, adult well-being, child well-being, and self-sufficiency. Both the design and the scale of the study provide a strong basis for conclusions about the relative impacts of the interventions over time, and data collected at two previous points in time, twenty (20) months after random assignment and thirty-seven (37) months after random assignment, yielded powerful evidence regarding the positive impact of providing a non-time-limited housing subsidy to a family experiencing homelessness. It is possible, though, that some effects of the various interventions might change over time or take longer to emerge, particularly for child well-being. Therefore, HUD plans to conduct a follow up survey of study families roughly twelve years after enrollment into the study. The 12-Year Follow-up Survey will attempt to collect information from three separate samples: 1) the 2,241 heads of household who originally enrolled in the study, 2) a sample of 2,220 young children between the ages of 10-17 who currently reside with the head of households, and 3) a new sample of 1,831 “adult

children” who consist of the young adults who were minor children during the base study period, but who have aged into adulthood over the past twelve years.

This *Federal Register* Notice provides an opportunity to comment on the data collection instruments and associated materials to be administered to the families enrolled in the Family Options Study.
